

Executive Profile: Sumeet Kumar
Co Founder, Micromax Informatics Limited.

Mr. Sumeet Kumar is the Co Founder of **Micromax Informatics Limited**. He has been instrumental in enhancing and heightening the company's technological competence, which has enormously contributed towards Micromax's speedy growth.

Mr. Kumar pursued a degree in B-Tech Mechanical Engineering from one of the top most reputed colleges in India- Jamia Millia Islamia University. Post his graduation; he has been hands-on with the technology for all the years hence. Before the advent of 'Micromax Company' in the year 1991, Mr. Kumar meticulously studied the IT infrastructure for some years and gathered plentiful knowledge, which he flawlessly executed to build the Micromax IT infrastructure.

Mr. Kumar has, over the years acquired profound knowledge in varied technical subjects & technologies like Symbian, VX Works, JAVA, Embedded architecture, Network protocols, Network stacks, frame relays, IT infrastructure, load balancing, Server Farming, and more.

A diligent and enthusiastic worker, Mr. Kumar's strong conceptual programming knowledge has helped in the automation of vital software at Micromax. With such technological prowess, it comes as no surprise that he enjoys playing various video games, qualifying each level with his proficient know-how.

Always known for his leadership skills, Sumeet has been instrumental in baby-sitting the Micromax mobile R&D team here in India and is now planning to sew in another baby R&D team in China itself. His current R&D team is instrumental in launching about 18~20 mobile phones/year and with the new team, he is confident of providing Micromax consumers with about 6 new mobile phones/quarter.

Even in his spare time he likes to expand on his technical expertise by reading up on various technical literatures. He also likes swimming and watching Discovery channel on TV.
